product design award 2011

Sangean's new compact portable PR-D8 FM/Stereo/AM Receiver with MP3 and MP3 Recorder/WMA Player is an awesome combination for the radio enthusiast, to say the least. Ideal for small spaces such as your office, workshop, kitchen, or bedside table. Its advantages over similar devices include its versatility, quality, styling & performance definitely exceeds the competition. Its functions are so simple and user friendly and its controls are so intuitive, which makes this TRULY THE ULTIMATE COMPACT AM/FM STEREO MP-3 RECORDER.

Superb Performance & Enhanced Receiver Experienced

Compact, yet powerful! The innovative Sangean technology delivers versatility, quality, styling and crisp crystal clear quality audio sound and range performance definitely exceeds the competition, which lives up to the hype.

Convenient Auxiliary Input and Line-Out

The PR-D8 offers an additional audio flexibility like the MP3 players via the auxiliary input jack as well as audio sources to an amplifier or recording device via the line-out jack.

Advanced Technology for ECO Design

The PR-D8 has the unique distinction of operating on NiMH, NiCad, or standard "C" size alkaline batteries. While the unit is plugged in and utilizing the rechargeable batteries; it recharges the batteries as long as you leave the switch into the rechargeable Ni/MH/NiCad position.

The Ultimate Timer Recording and Alarm Clock

The PR-D8 has a timer recording from AM/FM/AUX built-in high sensitivity stereo microphone. You can have your favorite AM or FM program that you had to miss because you were not available or it came on at a time you could not be home. Well, the PR-D8 solves your problems...set the timer for the time your program goes on the air and it will record your program on the SD card.

Versatility and New Modern Look

The PR-D8 has streamlined robust integrated and a modern look. It provides durable protection while you're on the road. It only weighs 1.8 lbs, making it ultra-light, which you can take wherever you go. You'll appreciate the large adjustable easy to read Dot-Matrix LCD screen, which features two Dot-Matrix LCD screens for MP3 functions including disk name, folder name, track name and the 3 segment battery level indicator. The MP3 Recorder with auto gain control has up to 32GB HCS capability. Time recording from FM/AM/Aux In or internal microphone. The MP3 features separate folder creation capability, random play and browsing, and 3 separate bit rate recording levels. Playback from MP3 or WMA formats.
